Description

MONOPOLY, the #1 classic family board game, is coming to the App Store and Google Play this winter.

In the MONOPOLY game, players invest in properties, build hotels and watch their empire grow. Fans of the board game can now experience the thrill of bankrupting their friends and family online or in local multiplayer.

The MONOPOLY game is a brand-new, premium adaptation of the original board game for mobile devices. The game will feature a classic mode and a quick mode for a fast game on-the-go. The game will provide the option to include several customised house rules at once, which allows players to play the game any way they want. The game will be ad-free and easy to pick up, everyone can play it.

Features:

- **Original Board Game** – Play the game you know and love!
- **Family-friendly** – Completely ad-free and fun for everyone!
- **Localised Boards** – The largest number of localised boards any digital MONOPOLY game has ever offered
- **4 Ways of Playing** – Single Player, Pass & Play, Private Online Multiplayer, Open Online Multiplayer.
- **Different Game Modes** – Classic and Custom Mode which includes Quick Mode as well as house-rule options.

About Marmalade Game Studio

London-based Marmalade Game Studio is one of the most successful publishers in the digital board games market. Notable successes include The Game of Life and Clue/Cluedo, both highly polished and innovative games that constantly top the charts on the app stores.

Marmalade Game Studio was founded on a passion and commitment to create great gameplay experiences for mobile and connected devices. We prototype, reflect, and test with target audiences to craft games that people love to play. Our goal is to continuously develop compelling high quality games for the digitally-distributed games market.
